Thanksgiving Day In U.S.A. U. S. Trying To Liberate Airmen, Ike Tells Mother

A COUPLE OF WEEKS ago the Journal photographer was sitting around trying to conjure up some dodge that would get him out of work for a couple of days when the wire editor interrupted.

"I want some art for the Thanksgiving Day Journal," the editor said.

Now in newspaper largon "art" is any kind of picture printed in the paper, although how they get the classification is often hard to understand.

So the photographer went out to the Charley Cobb farm northwest of Merritt, since Charlie always has a whole bunch of turkeys around the place and turkeys symbolize Thanksgiving.

As he was getting his camera set, a young gobbler strolled up and said, "How about taking my picture, Mac?" If you think that photographers can't understand turkeys, it's simply that you're not bird-brained enough to be a photographer.

The turkey, he later said his name was "Pete," gave a few practice ruffles and then went into his strut as the photographer shot away.

"Not too bad, eh, Mac?" Pete asked. "But you should have been here a couple of days ago, when I was really in the pink. I'm off balance today; you ought've seen me a couple of days ago."

"I was blazing away with a sort of sideways strut that carried me away from the range and I circled back of the shed before I came to myself. I opened my eyes and saw the most awful sight. I actually blanched, as they say in the story books."

"There in front of me were the two principal turkey allergies. An axe is bad anytime, but couple it up with a stump and any turkey gets a distinct pain in the cervical vertebrae. That's in the neck, Mac."

"If you want to we'll go back of the shed and try to reenact the scene, as they say in the detective magazines, and you can take another picture. But I know I won't be able to duplicate the shock, the sheer terror, that came the first time."

"I guess you'd like to know why? Well, I'm a true American — we turkeys met the Mayflower — and I've been thinking it over. Charley has been mighty nice to me, a fine roost and all the good grub I could eat. I've had the good life, you might say. Now comes the time for me to go to my part and I'd be mighty ungrateful if I groused about it."

"You can just say, Mac, that I'm mighty thankful I lived my days in good old Scott county, Ill., U.S.A. Goodbye, and take it easy on the curves."

Our Nation Has Cause For Gratitude, Ike

BY THE ASSOCIATED PRESS

Americans count their blessings Thursday in the uniquely American holiday of Thanksgiving, a day of prayer, feasting and recreation.

As President Eisenhower saw it in his Thanksgiving proclamation, the nation has much cause for gratitude.

"We are grateful that our beloved country . . . remains free and strong, and that each of us can worship God in our own way.

"We are grateful for the innumerable daily manifestations of divine goodness in affairs both public and private, for equal opportunities for all to labor and serve for the continuance of those homely joys and satisfactions which enrich our lives."

The President and Mrs. Eisenhower flew to Augusta, Ga., for the holiday. They had Field Marshal Viscount Montgomery as a guest but their son, Maj. John Eisenhower, his wife and three children could not get away from Fort Leavenworth, Kas., to make it a family reunion.

The Eisenhowers had a 43-pound turkey, gift of the National Turkey Federation.

And if ordinary families didn't have a tree turkey, they could buy the traditional bird for 4 to 10 cents a pound cheaper, generally speaking, than last year.

Here was the menu for American soldiers still in Korea:

Shrimp cocktail, roast young turkey, dressing, gilette gravy, cranberry sauce, snowflake potatoes, buttered corn, green peas, coleslaw, stuffed celery, olives, fresh carrot sticks, mixed pickles, apples, oranges, fruit cake, pumpkin pie, hot rolls, butter, coffee, tea, assorted candies and mixed nuts.

Football, too, had a place on the holiday traditionally devoted to feasting and giving thanks to God.

There was the 61st meeting of Cornell and Pennsylvania, and dozens of others that have become Thanksgiving fixtures. For those who didn't want to leave home to see football, there was a nationwide televised game between Maryland and Missouri Universities, and a pro TV game between Detroit and Green Bay.

The Labor Department said factory workers' take home pay, after taxes, hit a record for October at \$59.84 for workers with no dependents, and \$67.07 for workers with three dependents. It also reported worker purchasing power at near record levels, with wage rates increasing and living costs declining.

The latest October index is the lowest since June 1953, and is nearly 1 per cent below the living cost peak of 115.4 set last October.

Pork and poultry prices led the October food declines.

Under a normal pension plan, a fund which would provide \$100 a month at age 65 would provide only \$70 a month at age 60 but would give \$148 at age 70.

Prison Beating Fatal To Perjurer, Remington

LEWISBURG, Pa. (AP) — William Walter Remington, 37, a convicted perjurer who denied he gave government secrets to the Communists, died Wednesday of a skull fracture in the federal penitentiary here and the FBI accused two auto thieves of killing him.

Remington's head was bashed in and his face badly cut, when he was set upon Monday morning as he slept in a prison dormitory.

Emergency surgery was performed Tuesday on Remington but he died 16 hours later.

After an exhaustive FBI inquiry which started soon after disclosure of the beating, two convicts—George Junior McCoy, 34, of Grundy, Va., and Robert Carl Parker, 21, of Washington, D. C.—were charged with murder.

Another inmate of the prison—Alger Hiss—will be released on parole Saturday after serving 3½ years of a perjury sentence. Hiss, like Remington, was convicted of lying when he denied any connection with a Communist spy ring operating in Washington before and during World War II.

NEW YORK (AP)—The young widow of slain William W. Remington said bitterly Wednesday he was "a victim of the times."

Word that he had died in the federal penitentiary at Lewisburg, Pa., from a beating administered by other inmates came to her by telephone at her Levittown, Long Island, home from the institution's Protestant chaplain.

She has been living at Levittown under her maiden name, with her identity known only to a few close friends and neighbors.

The Journal-American quoted the widow as crying in a telephone interview:

"They killed him. They killed him because they thought he was a Communist. Oh, God! Oh, my God! No matter what they thought he never was a Communist."

The Post quoted her as saying further:

"Bill was a victim of his times. His only error was that he was a human being."

"It's a simple person's tragedy. It's the country's tragedy."

"I've seen statements by prosecutors and Sen. McCarthy that practically invited people to murder anyone accused of being a Communist."

Buenos Aires (AP) — A high church authority said Wednesday night the Rev. Rodolfo Carboni, priest of the capital's Roman Catholic Church of Santa Rosa de Lima, was lodged this afternoon in the Argentine federal prison in suburban Villa Devoto.

Federal police did not announce the priest was behind bars, but church circles said they heard he was sentenced to 30 days for a "disturbance" in his Buenos Aires parish church at the 11 o'clock Mass last Sunday.

The outburst developed during his sermon in defense of the Catholic clergy accused by Argentine President Juan D. Peron of working against the government. Some members of the congregation shouted objections to the priest's words and others shouted in his defense.

Father Carboni was arrested by federal police soon after the incident.

IOWA'S GOVERNOR BURIED — NEW VIRGINIA, Iowa (AP)—Gov. William Shane Beardsley was buried Wednesday afternoon following last rites in the Methodist Church.

Mrs. Beardsley, who was injured seriously in the traffic accident near Des Moines Sunday night, claimed the governor's life, still was in a Des Moines hospital.

Telephones Brownell Proposes Answer To Complaint Carrying Out Racial Desegregation Locally

WASHINGTON (AP) — President Eisenhower gave assurance Wednesday that the government is doing everything "humanly possible with peaceful means" to liberate 13 Americans sent to prison by the Chinese Communists as "spies."

The President's pledge was sent to Mrs. Hurley L. Baumer of Lewisburg, Pa., mother of one of the prisoners. Mrs. Baumer had complained about "dilly-dallying," and had told a reporter it was high time "we really get to doing something about those boys over there."

After receiving the White House telephone call, Mrs. Baumer told newsmen:

"This satisfies me. I feel that the President got my message or he wouldn't have had a call made to me. That's about all I can do."

Mrs. Baumer is the mother of Maj. William H. Baumer, 32, one of 11 American airmen and two civilians who received sentences ranging from four years to life. Baumer got eight years.

James C. Hagerty, the President's press secretary, said he had been instructed to telephone Mrs. Baumer after Eisenhower learned she had tried unsuccessfully to talk to some one in the White House about the fate of her son.

"I told her that the President had received word of her telephone call and I gave her the personal assurance of the President that everything is being done by her own government that is humanly possible with peaceful means to get our boys back," Hagerty said.

Tuesday night the State Department ordered its consul general at Geneva, Switzerland, Franklin C. Gowen, to lodge the "strongest possible protest" with Red Chinese authorities there against the imprisonment of the Americans on what it described as "trumped up" charges.

Gowen reported Wednesday he has demanded a face-to-face meeting with his Chinese opposite number, Wang Peng-chiu and that he expects a reply within two or three days. Gowen will ask for further details about the imprisoned Americans and the charges against them.

The United States does not recognize the Communist Chinese government, but during the Far Eastern conference at Geneva last June arrangements were made to exchange information between the two governments about Americans still held in China.

Mrs. Baumer had complained she tried unsuccessfully to reach Eisenhower by telephone to ask his aid in behalf of her son. "I (Continued on Page Eleven)

Red China Announces Killing 106

LONDON (AP)—Red China said Wednesday it has killed 106 American and Nationalist Chinese agents and captured 124 more air-dropped into the country in the years of war and truce since 1951. The claim was made in a Peiping radio broadcast loaded with anti-American propaganda.

A broadcast communique said the "American aggressors and their puppets, the traitorous Chiang Kai-shek clique," had dropped armed spies into different parts of China many times between 1951 and 1954. The dates included the Korean War, in which the Red Chinese fought against the U. S. and other United Nations forces.

The broadcast mentioned only 18 Americans, five of whom it said were killed when their planes were shot down. The remaining 13 appeared to be the Americans sentenced Tuesday by a Red Chinese military court to prison terms ranging from four years to life.

The communique lumped the other captives in a sweeping denunciation as "former officers of the traitor Chiang Kai-shek's army, professional agents, provocateurs, bandits and local despots who were inveterate counter-revolutionaries."

All were declared dropped into China by the U. S. Central Intelligence Agency, the Free China Movement in Hong Kong, and the Nationalist Chinese.

The communique was issued by the Peiping regime's Public Security Ministry. It claimed there were "14 American spies of the U. S. CIA headed by John Knox Arnold Jr., commanding officer of the U. S. 381st Air Supply and Communications Wing . . . and four other spies, including John Thomas Downey, sent by an espionage body of the U. S. Air Force colonel from Silver Spring, Md., commanded an Air Force B29 shot down Jan. 12, 1953, six months before the Korean War ended. His second in command was Maj. William H. Baumer of Lewisburg, Pa."

Downey is a civilian employee of the U. S. Army and a cousin of singer Morton Downey. Yesterday's announcement by Peiping on the military court said Downey was sentenced to life. Arnold to 10 years in prison and Baumer to eight years. Nine other men aboard the B29 drew shorter terms.

In Washington, a U. S. State Department spokesman said something along the line of Wednesday's Peiping broadcast had been expected as part of an effort to "plump" out all the propaganda they can "in an attempt to belaud the condemnation of the 13 Americans Tuesday."

McCarthy Better, Expects To Resume Debate On Monday

WASHINGTON (AP) — Sen. McCarthy (R-Wis.) was reported Wednesday to be continuing to improve at Bethesda Naval Hospital and one of his supporters said he expects the censure debate will resume Monday as scheduled.

This supporter, Sen. Dirksen (R-Ill.), said he had no assurance that McCarthy would be back in the Senate Monday, however. If he has not been released from the hospital by then, Dirksen said, "We would have to take that into account."

The Senate recessed for 10 days last Thursday when told McCarthy had to have hospital treatment. It took the position that it shouldn't proceed with debate on whether to censure McCarthy for his past actions unless he was on hand to defend himself.

Fleming Appeals Conviction For Aiding Reds

CHICAGO (AP) — Lt. Col. Harry Fleming today began his appeal from a court-martial conviction on charges of collaborating with the enemy while a prisoner in North Korea.

The Racine, Wis., officer's lawyer said after a meeting at 5th Army headquarters that they had raised three points of appeal in their closed session:

1. That Fleming did no wrong and did not in fact give aid and comfort to the enemy.

2. That there was sufficient evidence of starvation, deprivation and brain washing to excuse what ever acts Fleming may have committed as a prisoner.

3. That the court-martial judge failed to instruct the 11 members of the court that it was their responsibility to determine whether or not Fleming's ability to adhere to the right was so diminished by his treatment in the POW camp as to excuse the alleged offenses.

Attending the conference were Alfred LaFrance, Fleming's chief attorney, and Allen Gramza, his associate counsel, both of Racine. Lt. Gen. Hubert R. Gay, 5th Army commander, Lt. Col. John R. Pritchard, Army prosecutor at the court-martial, and Col. Robert L. Lunsford, 5th Army judge advocate.

Human Blood On Sheppard Basement Stairs, Dombrowski

CLEVELAND (AP)—Human bloodstains until Friday morning, when was found on the basement stairs, of her home after Marilyn Sheppard's July 4 murder, an ace crime sleuth testified Wednesday at her husband's murder trial.

In a slow and painstaking maneuver which built up the courtroom suspense, the state sought to demolish Dr. Samuel Sheppard's defense of his life — by questioning that a prowling murderer would take time to go into a basement with blood still dripping from him.

The testimony came from Detective Henry E. Dombrowski, a chemical expert from the scientific laboratory of Cleveland police headquarters.

Dr. Sheppard, 30-year-old osteopath, claims a bushy-haired prowler killed his pregnant 31-year-old wife and left him unconscious.

However, the state claims he beat Marilyn to death after a love affair with Susan Hayes, a pert 24-year-old former technician in his osteopathic hospital. Conviction carries a maximum penalty of death.

The trial was adjourned shortly after noon for a holiday recess.

THANKS FOR MODERATION

America could be thankful this Thanksgiving Day that nowhere on the globe is there a shooting war, and that the likelihood of a new outbreak—large or small—seems more remote than it did a year ago.

America could be thankful, too, that its destinies in this still critical time rest in the hands of a President who is deeply committed to the search for lasting peace and is governed by decent instincts in dealing with his fellow men.

But perhaps the thing it should be most grateful for right now is that its own people, the citizens who as voters make the basic decisions in the nation's life, are mostly men and women of moderation.

This country, like another, has its extremists and fanatics at both ends of the political scale. By nature they are highly vocal, and often they try unashamedly to pretend they are the voice of the nation. They try, too, to show that truth resides with them.

But the great bulk of the American citizenry falls in the moderate zone. It abhors violence of thought and act. In a complex age when black and white decisions appear almost obsolete, when the choice can lie between two rights or two wrongs, it seeks rational compromise, check and balance, cautious advance.

It was these millions of moderate Americans who spoke so plainly for a middle course in the recent election. Undisturbed by frantic cries from both the Right and the Left, they stepped into polling booths across the nation and acted to keep their major political parties in tight rein.

In so doing, they confounded pollsters, sentiment samplers, analysts and the politicians themselves, who thought they had the voters' behavior carefully charted. They undercut candidates billed as "sure things" and elevated surprise figures to victory. In other words, they acted in accord with their own moderate consciences for what they thought were their own and the nation's best interests.

At a time when the air is filled with shrill cries, we can indeed be deeply thankful that Americans have the will and the capacity and the temperament to behave calmly and moderately.

The many, many millions who conduct themselves with such admirable restraint and cautious wisdom are our real anchor in the swirling storm of the mid-20th century. With them resides most truth, rather than uncomfortably with the fanatics. And with them as our foundation, the United States can go on building toward a better, fuller, more secure future.

This 'Tribal Custom' Scars Real Human Relationships

BY MRS. MURIEL LAWRENCE

In Africa certain tribes say to their women, "If you want our admiration, get your face slashed with knives, for your natural face is boring." And their women, believing what they're told, submit themselves obediently to the pain and disfigurement imposed by their tribal standards.

In the United States, our tribe says to its women, "If you want our admiration, get yourself adorned every minute. For natural human relationship is dull."

And its women, believing what they're told, submit themselves obediently to the pain and disfigurement imposed by their tribal standards. By pain I mean the twinge of depression we feel as we read the bus ad warning us that we'd better retain the lure of an 18-year-old complexion; the splinter of suspicion planted by the women's magazine tale of the noble wife's too-tardy discovery of infidelity.

By disfigurement, I mean the self-doubt suggested to us by the TV panel discussion: "Does Love Change After Forty?" I mean the stab of envy we feel for the much-married, gorgeous Hollywood bride who smiles at us from a newspaper photo and says, "No woman is alive unless she's on a honeymoon."

This is our tribe talking. Though I love our tribe dearly, I think this particular kind of talk more destructive than any African knife. For it's directed, not at scarring our faces, but at the mutilation of real human relationship.

Because of this talk, we women ask much too much of love. As a result, this happens:

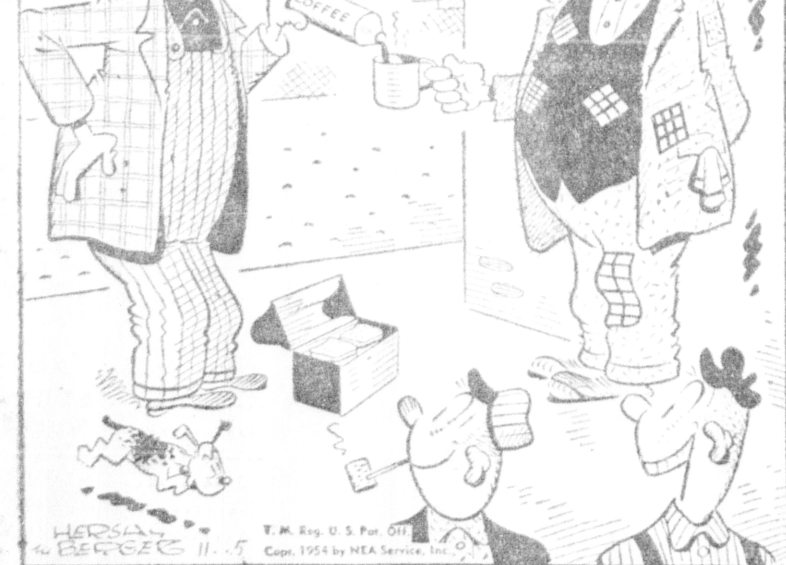

We iron a daughter's blouse and she complains that we haven't pressed her skirt. Over us comes the familiar, discouraged, "What's the use?" feeling. We think, "See? No appreciation. No, I'm not loved the way I should be."

Then our husband discovers that we've disposed of a magazine. He says, "O.K. Suppose it was three weeks old? Is that any reason to consider nobody in this house but yourself?"

We wish we were the movie star. We wish we had an 18-year-old complexion. We wonder if our husband is faithful. We go upstairs and take an aspirin to reduce our painful, disfigured response to the natural, unromantic, unexciting, solid give-and-take between human beings who live together and occasionally now and then wish that they didn't.

I have never discussed the subject with any African ladies, but I'll bet one thing I'll bet that face slashing is not nearly so tough on them as our terror of not being admired every minute is on you and me.

FUNNY BUSINESS By Hershberger

"Joe never lets a tin-copper get the best of him!"

Boyle's Column

By HAL BOYLE

NEW YORK (AP) — "You must find security within yourself," said Sarkis Tarzian. "Trying to find it outside yourself is like chasing the rainbow."

Tarzian, who came here from Turkish Armenia at the age of 6, long ago conquered his own self-doubts. His first night in this country he slept in an alley in Philadelphia. Today at 54 he operates a television, radio and manufacturing empire in Bloomington, Ind., that grosses 23 million dollars a year.

He will be glad to make and sell you a TV station complete from cameras to antenna, for \$120,000 on up.

All you need is the key," he said.

The success saga of this amazing Armenian is based on his philosophy that "there is nothing in life that can give you more pleasure than taking a new idea and making it work."

He decided in grammar school he wanted to be an engineer, and in high school won a scholarship that put him through the University of Pennsylvania. During summers he worked at 40 cents an hour as a factory laborer to earn his spending money, "so I wouldn't be a burden on my parents."

When he was graduated in 1924, he looked around for a new field and found it in radio. In the next 20 years he became a top design engineer for first Atwater Kent, then RCA.

During most of these years his wife Mary, herself a doctor of philosophy in international law, kept prodding him.

"Why do you work for these big companies? If you can do it for them, why not for yourself?"

Finally, in 1944, Tarzian did quit and recalls now with a grin the startled reaction of his wife. "But, why all of a sudden?"

They had saved \$40,000. What business should they go into?

"Again I wanted to try something new," said Tarzian, "and the answer seemed to be television."

He had pioneered in the development of radio tuners, and soon he was mass producing TV tuners for other manufacturers. Gradually he added other items which his skill as a practical engineer taught him he could turn out most efficiently. He expanded steadily, acquired a radio station, added a TV station and made it show a profit from the start.

Tarzian now has a payroll of 2,600 and is Bloomington's biggest single industrial employer. He is a strong booster of the advantages of living in smaller cities.

"I believe it is a good long-range plan for industry to decentralize and give people an opportunity to earn a livelihood in their own communities," he said.

In a world of neurotic fears that assail millionaires as well as paupers, Tarzian, whose hobby is reading science and philosophy, seems no personal reason for being afraid.

"The only people who are afraid are those who know they aren't doing what is right," he said.

"When you know you are doing what is right, you have your security inside you — and that's the only place you'll ever find it."

For a last-minute Thanksgiving dinner it is the quick and easy answer, too.

A religious man, Sam mused one day about the parable of the prodigal son. He took the bare 22 lines from St. Luke and fashioned 60 pages of what might have happened to the prodigal. He showed the story to his friend Joe Breen Jr., son of the movie industry censor.

Breen became enthralled, did some more work on it and peddled it around at the studio. All of them turned it down except MGM. The studio bought it and poured an estimated four million dollars into "The Prodigal" starring Lana Turner.

His first sale changed Sam's luck. He sold three scripts to the Catholic Hour program, a pageant performed for the Franciscan Fathers in San Francisco and a play which was presented locally and which won a \$100 prize. Now he is working on two scripts for the Family Theater TV program and is collaborating on a number of stories with friends.

His MGM pay was \$1,500 which seems like pretty small potatoes for the subject of a four million dollar film. But Sam doesn't complain.

"At that point, I would have given it to them for nothing," he said.

New, Plump, Shankless Hams Are Perfect for Christmas

THE NEW PLUMP SKINLESS AND SHANKLESS hams are easy to cook and easy to carve.

BY GAYNOR MADDOX

NEA Food and Markets Editor

The new, plump, round, easy to carve, skinless and shankless hams are perfect for Christmas dinner. Little work, fine eating and no need to watching the oven for hours. We tried one the other evening. It was a welcome piece of food news.

Control of Senate in Next Session Hangs on Heartbeat

BY PETER EDSON

NEA Washington Correspondent

Washington — (NEA) — Whether Republicans or Democrats will organize the U.S. Senate when the 84th Congress convenes next Jan. 3 is a question that still hangs on a heartbeat.

It is not just a question of re-organizing close states like New Jersey and Ohio, where Republicans Clifford Case and George Bender appear to have won the election. Reversals in those two states would increase the apparent Democratic lead of 48 to 47 Republicans, with Oregon Independent Wayne Morse committed to vote with the Democrats on organization of the new Senate. But that is not where the rub comes.

What really controls the result is whether all of the incumbent senators and senators-elect are alive, healthy, present and voting on Jan. 3 when the session opens to organize.

This may be a ghoully thing to talk about. But it is a fact of political life which cannot be ignored.

Seven Senators died during the last session of Congress.

With a number of senators now well past the traditional three score and ten, the fact that some of them or even younger men might not live through the session has been openly discussed by even the senators themselves.

Speculation at first centered on young Sen. John F. Kennedy (D., Mass.) now hospitalized for surgery on war injuries. Reports became so prevalent that he had cancer of the blood and could not resume his Senate seat that his father, former Ambassador Joe Kennedy, had to make a public statement to squelch the rumors.

Once the Senate is organized, there is little likelihood that control would be changed in mid-session, regardless of who might die or which party would retain actual majority.

There is no record in U.S. congressional history in which such a shift has been made. The most recent example of such a situation arose when Sen. Robert A. Taft died in 1953. He was succeeded by

Democrat Thomas A. Burke. The Democratic Party then had a nominal majority of one. But no move was made by the Democrats to reorganize the Senate.

If this precedent is followed in the 84th Congress, the Republicans would make no move to change control if they should obtain a majority through the death of any Democrat and his replacement by a Republican. There is no law prohibiting reorganization. It is just custom.

Six times in the past, there have been bitter fights over organization of the Senate when the parties were closely divided. And there is no instance when the party with the majority failed or refused to take control of the Senate and keep it.

The first time was March, 1861, when the two parties were tied, and there were two independents. Republican President James A. Garfield had called a special session to confirm appointments. When the Democrats tried to push through a motion to retain control of the standing committees, Vice President Chester A. Arthur broke the tie and voted with the Republicans so they could reorganize.

In the 50th Congress, 1888-89, during the last two years of Democratic President Grover Cleveland's first term, 37 Democrats were elected to 39 Republicans. Vice President Thomas A. Hendricks of Ohio had died in 1885. The Republicans succeeded in organizing the Senate by electing a Republican President of the Senate pro tempore.

Four times thereafter—in 1919, 1927, 1931 and in the present session of the 83rd Congress—the division has been 47 Democrats, 48 Republicans and one independent at the time of organization. In all cases, the Republicans organize the Senate.

The only really close House of Representatives division came in the 72nd Congress, 1931, when there were 216 Democrats, 218 Republicans and one independent. But four Republicans died, and the Democrats elected John N. Garner as Speaker of the House.

There is a considerable variation in the number of deaths and their causes in different parts of the country. The record in New England, for example, is better than that in the mountain states which may be accounted for in part by a higher accident in the latter and perhaps in part by more rheumatic fever.

As to Rheumatic Fever, however there has been a definite improvement in outlook for life. There appears to be better prospects of complete recovery following rheumatic fever and real progress has been made in diagnosis, prevention and treatment. All these lower the death rate from this serious disease.

Much more can be done to reduce deaths in childhood. One of the principal lines of attack is certainly against accidents at this age. Also increased attention to early symptoms, to using known methods of rehabilitation following disease or injury, and the cooperation of preachers, parents, community health agencies and the medical profession should still further improve the outlook.

Contrary To What some people believe, cancer and allied conditions are responsible for some deaths even in these youngsters. They have always occurred but now occupy a higher place in the scale of causes of death because of reduction in so many of the others. Actually, according to the bulletin mentioned, these conditions are a more important cause of death among children 5 to 14 than any other. Of these the leukemias account for nearly half.

Clyde Rudisill Named State ATA Officer

A Jacksonville man, Clyde Rudisill, was elected to the office of state vice president and Paul Black, also of Morgan county, was elected delegate to the national convention of the Anti Theft Association at its 72nd annual State Convention held Nov. 22 and 23 at Litchfield.

There were 300 delegates. Those attending from Jacksonville were Clyde Cooper, John Wilber, Paul Black, Ed Craig, Austin Patterson, Rob Scott, Ed Dimwiddie, Martin Burnmaster, Merrill Masten and Clyde Rudisill.

The national convention will be held next September in Missouri. The A.T.A. is a fraternal order of law abiding citizens who have banded together for mutual protection against thieves and other criminals, recovery of stolen property, to educate in the principles of citizenship, patriotism and charity to the needy.

The modern day A.T.A. is an outgrowth of the Anti-Horse Thief Association that was organized in 1854 by Major David McKee in Clark county, Missouri.

At that time horse thieves and all sorts of criminals were running free in the area. The Civil War took most A.T.A. members in the army and the organization practically died out.

Major McKee took steps to activate it in September of 1863 near the close of the war and the first constitution was adopted Oct. 23 at Millport with 11 members.

State orders were organized in 1881 and the Anti-Horse Thief News began Feb. 6, 1902 at St. Paul, Kans.

A Ladies Auxiliary was formed in 1909 and has grown vigorously.

In 1910 the Kansas Bankers' association united with the AHTA to give the order many new members and added prestige.

The word, "Horse," was dropped from the name of the organization at the National meeting at Blackwell, Okla. in 1926. There are about 4,000 A.T.A. members in Illinois, the largest of all state orders.

Interpreting The News

By J. M. ROBERTS
Associated Press News Analyst

Regardless of the usual protestations, there is a fairly general acceptance behind the scenes in American official circles that cases such as those of the fliers imprisoned in Red China are inevitable in dealing with the type of enemies America faces.

As the President says, everything possible will be done to effect their release. The effort promises to be as long as it is likely to be fruitless. The case of William N. Oatis in Czechoslovakia, most civilized of all the Communist sphere countries, testifies to that.

It is to be assumed that the 11 fliers sentenced as spies were on a military mission in uniform, since there is no information to the contrary, just as there is no information on the mission of the two civilian employees of the Army whose cases may be different.

Under the rules of war to which many countries adhere, captured uniformed fliers, whether on reconnaissance or in combat, would be entitled to the same treatment as captured members of a ground patrol which had infiltrated enemy lines — they should become prisoners of war and treated, in the matters of food, clothing and housing, as the capturing army treats its own men.

To imprison them, after the war, as spies, is to violate every Western concept. By this one act the Chinese Reds have strengthened the already-strong American belief that they are not entitled to acceptance as an upstanding nation which might conform to the United Nations charter.

Nevertheless, to talk about going to war with them over such a case is not realistic. Regardless of sympathy for the men and their families, regardless of the feeling of outrage, war with Red China would neither free them nor be in the national interest.

Provocative incidents of this class have often gone into the history books as the fuses of wars. Actually, when war has followed them, it is because the stage was set and an excuse needed.

The Peiping announcement that 20 other American and Nationalist Chinese agents had been caught and 106 of them killed in the process, comes a day after word of the prison sentences, and obviously is designed to carry the implication that the fliers have been treated judicially. They won't get away with that, except in the most pro-Red minds. Nor will the extent of the provocation give them any excuse. Instead, they stand convicted of hypocrisy in all their recent expressions of sweetness and light.

This, if taken notice of by Soviet Russia, might provide one chance of getting the men out. If it considers the act as sufficiently undermining of the current Communist line, the Kremlin might be persuaded to do something.

Montgomery Says Youth Needs Rod

NEW YORK (AP)—What modern education needs is more of the old-fashioned cane, says Field Marshal Montgomery.

The noted British military leader says he ought to know: "I was well beaten myself, and I am the better for it."

Speaking at Columbia University, Montgomery asserted Tuesday that more corporal punishment for unruly boys in school would help stop "the flow of hoodlums and criminals into the world."

The famous World War II general, now deputy supreme commander of the North Atlantic Treaty Organization, received an honorary degree from Columbia.

Carpet-Cleaning Discovery Hailed

What is said to be the "easiest and cleanest" home rug cleaner known as Blue Lustre is now available. It is the development of years of research. Blue Lustre leaves no foreign residue in the nap after cleaning. The pile is left open and fluffy and the colors are restored to original brilliance as if by magic. All this plus the fact that it's easy to apply and safe for the finest fabrics makes Blue Lustre the answer to the wall to wall carpet cleaning problem. Blue Lustre is a concentrate and inexpensive to use. Half gallons priced at \$2.50 will clean three 9x12 rugs. Available at Bomke Hardware Co.

the majority of the members had voted.

Mrs. Daniel Dietrick and Mrs. Roy Nickel reported on the women's session of the I.A.A. annual meeting which was held in Chicago last week.

The new chairman, Mrs. Paul Hess, gave the highlights of the last county executive board meeting and it was voted to again remember patients at the State Hospital with candy bars and chewing gum at Christmas time. The candy bars are to be brought to the unit meeting in Dec.

The selected subject, "Protecting the Health of the Family" was given by Mrs. Thomas Crawford. The major lesson, "Freezing Cooked and Baked Foods," was given by Mrs. Roscoe Goodpasture and Mrs. Jay Newton. Rolls, pies, cake, Italian Rice, and chicken-a-la-king were demonstrated and served to the guests. Containers for freezing foods were displayed and discussed.

Rampley, Mehring Lead Tigers To 86-63 Win Over Roodhouse

Coach Jim Spink's I.S.D. Tigers took strong in the second half to defeat visiting Roodhouse 86-63 for the Tigers' second win of the season. It was the first game for Roodhouse.

The visiting Railroaders put on a full court press early in the game and jumped out in front 20-14 at the end of the first period. Four 30-foot shots by McGee sparked early Roodhouse attack.

The Tigers came back in the second period to tie the score and go ahead by five at halftime. Mehring, Rampley and Duncan began hit.

After the halftime intermission, the Tigers left their zone to go into a man-to-man defense and pull away from the visitors. The spirited Roodhouse five kept plugging away but the rebounding of Zachariasen and the shooting of Mehring, Duncan and Rampley was too much for the visitors.

Rampley with 22 and Mehring with 21 points paced the scoring for the winners. Duncan clipped in with 17.

The big gun for the Charles Brooks' coached five was Houseman with 15. Cunningham added 13.

I.S.D. won the preliminary 48-40.

The signing of Moses completes the Phillies coaching staff.

SWALLOWS WHISTLE

TRIESTE (AP)—It was a case of whistling in the dark for Umberto Mazzola, 22, an ardent fan of the Trieste soccer team.

He brought a whistle to the game between Trieste and Naples. In the excitement he swallowed it.

Umberto was taken to the hospital, where surgeons removed the whistle.

Trieste lost the game 2-0.

Expect Sellout Sat. For Army-Navy Battle

By THE ASSOCIATED PRESS

The Thanksgiving holiday college football pickin' will be slim Thursday as several traditional rivals and a scattering of other games make up the gridiron fare.

Turkey day tradition hovers over such games as Cornell and Pennsylvania at Philadelphia, Texas A&M and Texas at Austin, Utah and Utah State at Salt Lake City and Colgate and Brown at Providence.

However, the national college television game of the day (ABC) will be Missouri against Maryland at College Park, Md., starting at 12:55 p.m., CST. The Missourians have yet to win in four meetings with the Terrapins.

Most of the major fireworks will be reserved for Saturday, with the great Army-Navy service spectacle scheduled for a sellout crowd of some 100,000 at Philadelphia.

Southern California, the Pacific Coast's representative in the Jan. 1 Rose Bowl, plays Notre Dame, Duke is at North Carolina, Mississippi State at Mississippi, and Rice at Baylor in other grade A

FAN BREEZES

BY BILL MERRIS

The 18th annual Daily News all-state selections came out yesterday with unbeaten E. St. Louis again dominating the downstate field. The Jacksonville Crimsons failed to come in for their share of the spotlight although one Crimson gained honorable mention distinction. Ed Marquard, Jack's tackle, played good ball all season and deserved the honor.

No one asked us but we think the Crimsons had two or three others who should have been on the list. Center Max Roegge, guard Jim Woodward and end Larry Knight were certainly better than average.

However, I.S.D.'s Jack Rampley proved someone on the board has heard of Jacksonville. He came through to make the third team backfield on the team selected from schools of 350 students or less.

Winchester's Pat Lashmet was a first team choice and an obvious one. The Wildcat back was one of the best we've seen in a long time.

Pat's brother, Don, a Western College starter, is high on the list of I.I.A.C. Conference rushing leaders. Don carried the ball 79 times for the Leathernecks, picking up 317 yards for a 4.0 average. This average was good for seventh place among the teachers colleges and his total yardage was second only to Jim Padoley of Central Michigan.

Cardinals Offer To Sell Columbus Park To City

COLUMBUS, Ohio (AP)—Red Bird Stadium, home of the Columbus club of the triple A American Assn., was offered for sale Wednesday to the City of Columbus by the St. Louis Cardinals, owner of the Columbus club. The price was set at \$550,000.

The offer to sell appeared to confirm recent reports St. Louis is ready to pull its American Assn. franchise out of Columbus.

The offer to sell the ball park came during negotiations between Columbus and Cardinal officials as they attempted to reach an option agreement.

Columbus Dispatch sports editor Brad Wilson said Cardinal interests seemed agreeable to a clause in the option agreement which would make the sale contingent upon Columbus obtaining a triple A baseball club in the future.

This could be the former Kansas City Blues. The New York Yankees, owner of the Kansas City franchise in the association, must find a new home for that club because the erstwhile Philadelphia Athletics have moved in and made a major league town of Kansas City.

Colorado's Hardy Selected AP Back Of Week

BOULDER, Colo. (AP)—Tailback Carroll Hardy of Colorado University, "surprised and happy" over his selection Wednesday as Associated Press back of the week, said his No. 1 ambition now is to play in the East-West football game at San Francisco New Year's Day.

"I hope that Frank Bernardi and I can play together in that game," said the Sturgis, S. D., senior. Hardy, wingback Bernardi and fullback John Bayuk have formed a talented offense unit for Colorado all season.

Hardy's performance in CU's final game against Kansas State netted him 238 yards in 10 tries for an amazing 23.8 average.

That was one of the feats which sparked his selection as AP back of the week.

He also dashed K-State's Orange Bowl hopes by scoring three touchdowns, kicking one extra point, and streaking 79 and 36 yards for two of his scores, and 49 yards to set up his third.

The game climaxed Hardy's college football career.

Boudreau, Shantz Discuss Ailing Arm

PHILADELPHIA (AP)—Lou Boudreau, manager of the Kansas City Athletics, met with southpaw Bob Shantz Wednesday and said he was satisfied with the improvement in the pitcher's ailing arm.

Shantz told Boudreau the arm has responded to treatment and he felt sure he would be able to help the As. Shantz, the American League's most valuable player in 1952 when he turned in a 24-7 record, was out of service with a bad shoulder the past two seasons.

WARRIORS WIN 91-87

HERSHEY, Pa. (AP)—The Philadelphia Warriors whipped the Fort Wayne Pistons 91-87 Wednesday night to take over first place in the eastern division of the National Basketball Assn. The loss put the Pistons in a tie with Minneapolis for top spot in the western division.

Many flowers which have strong odors do not have nectar from which bees can make honey.

Underdog Joey Maxim Whips Paul Andrews

CHICAGO (AP)—One-eyed and bloated, old pro Joey Maxim, a 4 to 1 underdog, punched out a unanimous 10-round decision over like, experienced Paul Andrews at the Chicago Stadium Wednesday night.

Maxim, his right eye puffed to closing in the very first round, outgamed and outmaneuvered an opponent eight years younger in a demonstration of gameness and ring savvy.

Former light heavyweight champion Maxim appeared out of shape and destined for a trimming after the first two rounds of the nationally televised fight.

The 6-foot, 3-inch Andrews seemingly ended just a little more time to finish off Maxim as he pleased.

But Joey called upon vast ring resources. He feinted, weaved, and slugged away to thwart his younger opponent.

Round after round, Andrews tried to build the battered-appearing Maxim into submission, but Joey always had enough artistry, enough sting in his punches to hold his own.

The AP card had Maxim the winner 90 to 87 points.

This bout was supposed to set up Andrews for a possible 175-pound title shot at champion Archie Moore, who defeated Maxim and beat him twice thereafter.

But Maxim, handling Andrews' fourth defeat against 29 victories, added fuel to his own career by scoring his second triumph in the role of a "trial horse."

Maxim previously handed former Olympic champion Floyd Patterson the only defeat of his pro career.

KC New Look An Advantage To Power Hitters

KANSAS CITY (AP)—A new look in the stadium of the Kansas City Athletics will be to the advantage of the home run hitters in the American League.

To provide more seating room, home plate is being moved out 25 feet, thus shortening the distances to the outfield fence. The new field measurements will be 312 feet from home plate to the fence in left and right fields and 430 feet in center field.

Yankee Stadium in New York is 301 feet to left field, 296 to right field and 461 down the center.

Harshman Signs White Sox Pact

CHICAGO (AP)—Jack Harshman, lefty who set a club single game strikeout record of 16 last season, Wednesday became the fourth Chicago White Sox player to return a signed 1954 contract.

Harshman, acquired two years ago from Nashville, had a 1954 record of 14-8 and 2.95 earned run average.

Last July 25 at Boston, he fanned 16 to break the White Sox record of 15 held by Ed Walsh.

Phil Cavarretta, first baseman; Cass Michaels, third baseman; and Virgil Trucks, pitcher, previously signed.

GOUSY, MACAULEY LEAD BOSTON TO 108-103 VICTORY

BOSTON (AP)—Boston's one-two scoring punch of Bob Cousy and Ed Macauley led the Celtics to a 108-108 National Basketball Assn. triumph over the New York Knickerbockers Wednesday night at Boston Garden. Cousy tallied 29 points and Macauley 27.

Your heart is about as big as your closed fist.

Youths Dominate Border Conference All-Stars

PHOENIX, Ariz. (AP)—The youth movement in the Border Conference this year was clearly evident in the annual All-Conference team selected for The Associated Press in a poll of coaches, sportswriters and sports casters.

Only three seniors made the first team, dominated by Texas Tech's Red Raiders and Arizona's Wildcats. The two schools split eight of the first team positions. Texas Western captured two of the others and Arizona State the third.

Only three of last year's first team members were returned to this year's top eleven.

Five juniors, two sophomores and a freshman completed the lead team.

Hardin-Simmons placed five men on the second team after failing to get a man on the top club. Three Raiders and one each from Arizona, Arizona State and Texas Western completed the team.

UCLA Director Says Sanders Will Stay

LOS ANGELES (AP)—UCLA Athletic Director Wilbur Johns Wednesday said Red Sanders had told him he plans to remain as the title-winning Bruins' football coach.

There has been conjecture that other schools might try to lure Sanders away from UCLA after his team's undefeated, unified season and second straight Pacific Coast Conference championship.

When he came here in 1949, Sanders had a five-year contract with an option for another five at a salary believed to be about \$18,000 annually.

Davis Cup Squad Seeking Help Of Two Stars

MELBOURNE, Australia (AP)—America's Davis Cup squad has sent an SOS to professional stars Pancho Gonzales and Pancho Segura to help it regain the cup from Australia next month.

Tony Trabert, acting captain of the American team, announced Wednesday night he had sought the services of the two players, who are here on professional tour.

Trabert told a newsman: "The U. S. Lawn Tennis Assn. has not instructed us to hire Gonzales and Segura, but they will help us, out of patriotism. If they can work out with us, they will not only get our games to the utmost, but will give a terrific boost to our morale."

Arkansas Coach Gets Pay Hike

FAYETTEVILLE, Ark. (AP)—The University of Arkansas Wednesday raised the salary of the coach of its Cotton Bowl-bound Razorbacks from \$12,000 to \$15,000 a year.

University President John T. Caldwell said he notified Bowdoin Wyatt of the increase, effective Jan. 1.

Dr. Caldwell said the university Board of Trustees several weeks ago gave him authority to pay Wyatt's salary as head football coach from the \$12,000 set out in a five-year contract, which still has three years to run. The amount was left to Caldwell.

Caldwell said he arrived at the \$15,000 figure after conferring with Athletic Director John Barnhill.

Furman Football Coach Resigns

GREENVILLE, S. C. (AP)—William A. Young has resigned as head football coach and athletic director at Furman University. The entire football coaching staff planned to follow suit.

There was no comment from the coaches or the school on the reason for the resignations.

Youths Dominate Border Conference All-Stars

PHOENIX, Ariz. (AP)—The youth movement in the Border Conference this year was clearly evident in the annual All-Conference team selected for The Associated Press in a poll of coaches, sportswriters and sports casters.

Only three seniors made the first team, dominated by Texas Tech's Red Raiders and Arizona's Wildcats. The two schools split eight of the first team positions. Texas Western captured two of the others and Arizona State the third.

Only three of last year's first team members were returned to this year's top eleven.

Five juniors, two sophomores and a freshman completed the lead team.

Hardin-Simmons placed five men on the second team after failing to get a man on the top club. Three Raiders and one each from Arizona, Arizona State and Texas Western completed the team.

UCLA Director Says Sanders Will Stay

LOS ANGELES (AP)—UCLA Athletic Director Wilbur Johns Wednesday said Red Sanders had told him he plans to remain as the title-winning Bruins' football coach.

There has been conjecture that other schools might try to lure Sanders away from UCLA after his team's undefeated, unified season and second straight Pacific Coast Conference championship.

When he came here in 1949, Sanders had a five-year contract with an option for another five at a salary believed to be about \$18,000 annually.

Davis Cup Squad Seeking Help Of Two Stars

MELBOURNE, Australia (AP)—America's Davis Cup squad has sent an SOS to professional stars Pancho Gonzales and Pancho Segura to help it regain the cup from Australia next month.

Tony Trabert, acting captain of the American team, announced Wednesday night he had sought the services of the two players, who are here on professional tour.

Trabert told a newsman: "The U. S. Lawn Tennis Assn. has not instructed us to hire Gonzales and Segura, but they will help us, out of patriotism. If they can work out with us, they will not only get our games to the utmost, but will give a terrific boost to our morale."

Arkansas Coach Gets Pay Hike

FAYETTEVILLE, Ark. (AP)—The University of Arkansas Wednesday raised the salary of the coach of its Cotton Bowl-bound Razorbacks from \$12,000 to \$15,000 a year.

University President John T. Caldwell said he notified Bowdoin Wyatt of the increase, effective Jan. 1.

Dr. Caldwell said the university Board of Trustees several weeks ago gave him authority to pay Wyatt's salary as head football coach from the \$12,000 set out in a five-year contract, which still has three years to run. The amount was left to Caldwell.

Caldwell said he arrived at the \$15,000 figure after conferring with Athletic Director John Barnhill.

New York Bond Market

NEW YORK (AP)—The bond market was fairly steady Wednesday despite extreme heavy trading. "Big Board" volume jumped to \$6,900,000 par value from \$5,950,000 Tuesday. It was the second most active session of the year, second only to Jan. 12, when sales totaled \$9,750,000.

Investment quality corporates were under selling pressure most of the day, but prices firmed during the final hours. On the other hand, gains in many speculative carriers narrowed at the end, though most convertible utilities and industrials finished strong.

Some U. S. government bonds recovered from early softness. But the treasury list was mostly lower.

New York Stock Market

NEW YORK (AP)—The stock market surged upward to another new high since 1929 Wednesday, and it accomplished its feat on the heaviest volume in early four years.

The gain was not so pronounced as that of Tuesday. Profit taking dotted the list and brought a sizable number of losses.

Rising stocks dominated the list, however, with excellent leadership in oils, steels and railroads, together with many individual issues affected by corporate developments.

Business amounted to 3,990,000 shares, greatest since Dec. 18, 1950, when 4,490,000 shares changed hands. Tuesday's total was 3,690,000.

The market now has entered its fourth week of steeply rising prices since the national elections Nov. 2. Actually, the market has declined in only three sessions since the elections.

The Associated Press average of 60 stocks advanced 40 cents at \$146.30, a new high since Oct. 14, 1929. Tuesday it was up \$1.00 at a new high since that date.

The industrial component of the average was up 30 cents at \$200.40, railroads gained 80 cents at \$111.40, and utilities were up 10 cents at \$66.30, all new highs.

The American Stock Exchange was higher on heavy volume of 1,220,000 shares as compared with 1,150,000 Tuesday.

GRAINS EDGE HIGHER IN SLOW DEALINGS

By WILLIAM FERRIS
CHICAGO (AP)—Grains edged higher in slow dealings on the Board of Trade Wednesday, only corn failing to make small gains. The yellow grain was subjected to minor profit taking.

Wheat and soybeans were firm from the start. Both ended around their best prices of the day, but the gains still didn't amount to much. Rye and oats, a little shaky early, came ahead in the last two hours. Corn reduced early losses late in the day.

Wheat closed 1/2 to 1 cent higher, corn 1/4-3/8 lower, oats unchanged to 1/8 higher, rye unchanged to 1/2 higher, soybeans 1 to 2 cents higher and lard 25 to 33 cents a hundred pounds higher. Loose lard remained unchanged at its low for the year, 13 cents a pound.

The main reason for the firm tone in soybeans was the continuation of the strong producer withholding movement. Cash bean receipts amounted to only 16 cars. Bean meal prices also inclined higher, as they have each day this week and that aided soybeans.

Wheat's technical position appeared to be improved following the decline in earlier sessions this week. Only very mild selling pressure appeared at any time. Lack of moisture in the southwest contributed to the upturn in July and September futures.

Congressional indignation over the detention of the 13 Americans was marked Wednesday by a demand from Rep. Thomas J. Lane (D-Mass.) that the State Department serve notice on the Reds that they have a week to fly the men out to freedom.

"If this demand is not complied with," Lane proposed, "we shall inform the Chinese Reds that we shall step up our aid to Chiang Kai-shek and permit him to engage in counteroffensive action against the Chinese mainland."

Chiang Kai-shek's Nationalist Chinese forces are based mainly on the island of Formosa off the Chinese coast.

Lane's congressional district includes Lynn, Mass., the home of Richard George Crocker, one of the two civilians sentenced by the Reds.

Latin Countries Draft Bank Plan

QUITANDINHA, Brazil (AP)—Latin-American countries launched plans Wednesday for a big Inter-American bank to finance their economic development, with or without United States participation.

The plan was drafted by Chile and is supported by a majority of the 21 countries represented at the Inter-American Economic Conference here. It envisages participation by the United States, but would circulate among the delegates to other countries will put up the money themselves if Washington does not go along.

The U. S. delegation appeared cold to the project. The delegation headed by Secretary of the Treasury, George Humphrey, has expressed the view the U. S. Export-Import Bank, the World Bank and a proposed International Finance Corp. plus private investment, can provide ample resources to meet Latin America's economic needs. But orator after orator from the other delegations objected to the U. S. contention the capital so provided would be adequate.

Reds Warn Rearm Of W. Germany To Make New Dangers

STOCKHOLM (AP)—The Communist-sponsored World Peace Council launched a worldwide propaganda assault against Western Defense efforts today, warning that rearmament of West Germany "would create a situation fraught with new dangers."

The council concluded a six-day session in Stockholm early today by adopting a series of resolutions denouncing almost every Western defense agreement but not even mentioning the military arrangements of the Soviet bloc.

Pulled To Safety As Lawn Collapses

SHENANDOAH, Pa. (AP)—A 65-year-old woman was pulled to safety Tuesday after her front lawn collapsed and she was plunged 75 feet into a mine breach.

Mrs. Catherine Murphy of nearby Shaft, Pa., was injured critically when her front yard virtually disappeared in the cave-in. Alton Hertz, member of the William Penn Fire Co., was lowered into the yawning hole and pulled the woman to safety.

She was taken to Leontine Mountain Hospital here and was reported suffering from internal injuries, a fractured nose, possible fracture of the left hip and other injuries.

ORDER PINBALL MACHINES OUT OF SPRINGFIELD

SPRINGFIELD, Ill. (AP)—Police Chief Harold Johnson Wednesday ordered all pinball machines removed from Springfield within 24 hours.

The order was issued in the wake of a Sangamon County grand jury report that pinball machines in the city were being used for gambling purposes through cash payoffs to winners.

Johnson said he plans to set up a screening process for applicants for pinball licenses. He indicated no machines will be allowed in the city until after the first of the year and that thereafter applicants will be required to sign statements the machines will not be used for gambling.

SLICK SALESMAN

One councilman said: "Imagine that! This guy comes to town to pay us \$10, and leaves with \$1,000 of our money. I hope he doesn't get arrested here again. We can't afford it."

Mrs. Bergstrom Dies Tuesday At Sacramento, Calif.

Mrs. Victor Bergstrom, former Jacksonville woman, died Tuesday at Sacramento, Calif., in a nursing home after an extended illness.

Mr. and Mrs. Bergstrom and their children lived in Jacksonville for many years leaving the city in 1933 when they moved to California. Mr. Bergstrom died Dec. 2, 1944. When the family lived here they occupied the residence at 628 Hardin avenue.

Woodstock Bank Discovers Theft Of \$1,670 Coins

WOODSTOCK, Ill. (AP)—Robbery of \$1,670 in coins from the Algonquin State Bank of Woodstock was discovered today.

The theft was discovered by a teller, Virginia Weith, after the opening of the bank in the morning. She called police, who found a window on the ground floor and a basement door open.

The bank is situated in a house next door to where a new bank building is under construction. The old bank building was razed last summer.

Fred Bau, Woodstock chief of police, said the coins, which were wrapped, were taken from a cabinet and a nearby safe was undisturbed. He said they apparently were carried out in coin trays.

Bau said he has called in the FBI into the investigation.

Six coeds will be chosen as finalists later and one of this group will be named 'Miss Drake.' Announcement of the queen will be made at Drake's annual variety show, 'Buildup Tales,' next spring.

Thanksgiving Pay Hike For 4 Cities' Ward Employees

CHICAGO (AP)—Thanksgiving Day will bring a 5 per cent pay increase for 8,800 Montgomery Ward & Co. employees in four cities, and AFL union official announced today.

The 6.4 cents an hour boost will go to 5,000 non-selling employees in the Schwinn warehouse and in the mail order, fashion houses and retail stores in Chicago, he said, and to 3,800 employees in St. Paul, Kansas City and Portland, Ore.

Donald Peters, president of Local 743 AFL Warehouse and Mail Order Employees union, called the raise an "interim wage increase" for Chicago employees. Peters and Lester Asher, union attorney, said negotiations will continue for additional pay increases, a company-paid health-welfare program, grievance procedure, seniority and union security.

John A. Barr, Ward vice president, said wage increases in Chicago will amount to \$641,000 a year and those in the other three cities \$634,000 a year.

Barr said the employees affected have various job ratings with different rates of pay and their average wage is not readily available.

Talbott Optimistic, Also Gloomy Over Defenses Of U.S.

WASHINGTON (AP)—Air Secretary Harold Talbott said Wednesday the fastest jet interceptors would be useless as defense against V2 missiles.

But he also predicted that "we will have defense against missiles" ultimately, utilizing weapons systems based on electronic devices in process of development.

In a National Press Club speech the secretary of the Air Force was gloomy and optimistic, by turns. He expressed misgivings about the ability of present anti-aircraft guided missiles to cope with modern jet bombers and, indeed, about the degree of efficiency of jet interceptor planes pitted against an invading jet bomber fleet.

But, when asked how much we can rely on the air bases overseas, he said "I'm not very much worried" about the ability to use them. He said they are guarded by early warning radar, interceptor plane forces and other units to keep invaders from knocking them out.

Then, turning to a specific point which came in for recent attention with disclosure that the first seven of an ultimate line of distant early warning radar stations was operating in Alaska, Talbott said:

"I don't believe that an enemy bomber could get across Alaska without being picked up."

Jacksonville All Set For Thanksgiving Day

With a spirit of thankfulness in his hearts of all, the Jacksonville community will observe Thanksgiving Day much the same as it has in past years—all public and business buildings closed, and tables crowded with food characteristic of the typically American holiday.

Turkey, duck, chicken, cranberries, dressing—it's an old menu from which to select, but a tried and true bill-of-fare for the holiday.

The past year has been pretty good to the Jacksonville community as a whole. The entire area has continued to thrive and expand, business has been good generally, and farmers have come through the season in fairly good shape, although the drought cut crops in most areas.

Several hundred Morgan county young men and women will eat Thanksgiving dinner in Korea, Japan, Austria, Germany, and other countries, for which the Pilgrim fathers had no concern as they sat down to their first Thanksgiving repast. But the families of these servicemen and women are thankful that a war is not going on.

Jacksonville churches joined last night in a Thanksgiving service held at 7:30 o'clock at First Presbyterian church. The speaker was Dr. Alfred Henderson, professor of history at MacMurray College, a prominent layman who was selected

Action Forestalls Threatened Rail Workers' Strike

WASHINGTON (AP)—White House action has forestalled for at least 60 days a strike which had been threatened in a dispute between most of the nation's railroads and the railway conductors and brakemen.

Announcing creation by President Eisenhower of a three-man board which will have 30 days in which to investigate the dispute and make recommendations for settlement, the White House said members will be named shortly. The recommendations the board makes are not binding on either party.

The law provides that there shall be no strike and no change in working conditions, except by mutual agreement, for an additional 30 days after the board reports.

The independent union's dispute with about 80 railroads centers on a demand for new wage rates based on the size and weight of locomotives, a system now in effect for engineers and firemen. Conductors now have uniform pay rates.

Mrs. Eisenhower Christens Ike's New Plane

WASHINGTON (AP)—Mrs. Dwight D. Eisenhower christened the President's new airplane "Columbine III" Wednesday—and splashed herself with water from a Colorado fishing stream in doing so.

The first lady officiated at the christening ceremony just before she and the President took off for a Thanksgiving weekend in Augusta, Ga.

The christening—which made use of water specially flown from a favorite fishing stream of the President's—inaugurated the chief executive's first flight on the new plane, which is 18 feet longer and 50 miles an hour faster than the Columbine II, which has been transferred to other Air Force duties.

Rev. Meeker Will Conduct Rites For Long-Time Friend

Rev. W. C. Meeker was called to Belleville, Ill. Wednesday to officiate at the funeral of a former Presbyterian parishioner, William J. Bien.

Mr. Bien was a well-known business executive in the St. Louis area, having been for many years the president of the Belleville Casket Co. More recently he established offices and show-rooms in St. Louis. Since he travelled considerably for his company he was well known by the funeral directors in this part of Illinois.

Mr. Bien was responsible for the Belleville church calling Rev. Meeker to its pulpit back in 1922 where he served for six years prior to coming to Jacksonville. These circumstances developed a friendship that never wavered through the thirty-two intervening years.

The funeral will be held in the neighborhood church, the Epworth Methodist, with which he was affiliated in recent years. Mr. Meeker was accompanied on his trip by Philip Reynolds.

RITA AND ALY'S DIVORCE SETTLEMENT GETS LEGAL OKAY

RENO, Nev. (AP)—Actress Rita Hayworth and Aly Khan Wednesday got the legal stamp of approval on a divorce settlement which sets up an elaborate guarantee for the return of their daughter Yasmin, 5, when she visits the Moslem prince.

The 22-page document made no mention of a huge inheritance when Yasmin's grandfather, the Aga Khan, dies.

Rita's attorney, Bartley Crum, earlier had told reporters Yasmin would inherit under Moslem law "a very substantial amount"—rumored at 140 million dollars—when the fabulously wealthy spiritual leader passes away.

The agreement, approved in a six-minute court session by District Judge A. J. Maestretti, provides that the red-haired actress receive \$8,000 a year for the child's support.

Rita agreed to send Yasmin to boarding school in Switzerland for two years when the child reaches 10, and allows Aly to have her for at least six weeks a year.

Spelled out in detail is the process when Yasmin is sent to visit her father. The Khans must post a \$100,000 bond plus written assurances, that Yasmin will be returned to Rita.

Nations Confer On How To Get Aid For Latin-America

By REGINALD L. WOOD

QUITANDINHA, Brazil (AP)—Delegates to the Inter-American Economic Conference prepared today to thresh out a score of proposals aimed at Latin-American development. Most of them would involve greater U.S. aid to southern neighbors.

In lengthy speeches Tuesday outlining their needs, delegates agreed they should get more help but they had not decided how to talk Uncle Sam into it.

One of the more concrete programs Tuesday was outlined by Jorge Prat, Chilean treasury minister. It called for creation of an inter-American fund, drawing its capital from resources Latin-American nations have cached in foreign banks, bonds and credits.

A survey among the 250 delegates and advisers at the conference indicated that while many consider the Chilean proposal interesting, some agree with the U.S. contention that the resources of the international finance corporation proposed recently by the World Bank governors, together with funds available from the Export-Import Bank, would meet their needs.

Another Chilean proposal calls for organization of a commodity commission to provide a buffer between Latin-American producers and U.S. consumers. The commission would negotiate the sale of surpluses.

It is generally believed the bank, Calif.

United States will oppose this idea because it wants a free hand to deal directly with individual nations.

READING TIME

HARTFORD, Conn. (AP) — Edwin E. Smith, Springfield, Mass., English teacher, told the New England Assn. of Teachers of English that most high school students don't read outside the classroom because:

"During November, December and January there are football games. Then the students paint scenery, play the piano, stand up on the stage and shimmy and shake and sing Ricochet Romance; and it's all wonderful. Then they must watch television and they tell me they have jobs in the afternoon and evenings. It's no wonder they don't read."

Property Owners Seek Repeal Of Toll Road Law

CHICAGO (P)—The Illinois Property Owners Assn. today addressed a request to Gov. William Stratton that he call a special session of the Legislature to repeal the toll road law and that the projected toll road program be abandoned.

The association passed the resolution Tuesday night at a meeting in which it changed its name from the Suburban Home Protective League. The change was made, a spokesman said, to encompass communities from outside the Chicago suburban area.

G. I. Roisman of Oakbrook was elected chairman.

Some 50 persons from nine communities heard John J. Yowell, former president of the Chicago Bar Assn., express the opinion the toll road commission enabling legislation violates the 14th (due process) Amendment of the U. S. Constitution.

Communities represented at the meeting included Western Springs, Hinsdale, Oakbrook, Jefferson Gardens, Deerfield, Libertyville, Northbrook, Lake Forest and DeKalb.

Gov. Stratton announced in Springfield Monday the state will embark on a scaled down toll road program of 191 miles estimated to cost 390 million dollars.

It included a route running from Indiana line and circling Chicago on the west to the Wisconsin line; a route from Chicago to Rockford and then to the Wisconsin line; and an east-west route from Chicago to the eastern edge of Aurora.

Europe Security Requires German Rearm: Hoover

BONN, Germany (P)—Former President Herbert Hoover said today the security of Europe will depend on "the malevolent will of the Communists" unless the Paris agreements to free and rearm West Germany are ratified.

"The only hope for our safety is the building up of arms and a united front among free nations which will deter Communist aggression against us," Hoover said in an address before German and foreign correspondents.

Hoover, who is spending six days in West Germany on a goodwill mission, asserted neutrality is no answer to the security of free nations in case of a major conflict.

OUTTA THE WAY—A circus outfit has devised this means to clear a path through traffic jams in Paris, France. Horns are banned by a recent edict. At first sight, it works wonderfully, as other motorists do a double take. But then there's always the chance of accidents when motorists and pedestrians take a second look.

Author of Familiar Verse Suggested Thanksgiving Day

SPRINGFIELD, Ohio (P)—It's generally known that Abraham Lincoln proclaimed the annual Thanksgiving Day observance back in 1863.

"Likewise, the words and verses to 'Mary Had a Little Lamb' are pretty familiar to most Americans."

But how many know that much of the credit for the observance of Thanksgiving is due to the same woman who wrote the famous nursery rhyme?

Well, it is according to a Wittenberg College professor who believes Sara Josepha Hale, author of "Mary," was the one who spurred President Lincoln into making the holiday proclamation.

Dr. Paul F. Bloomhardt, head of the department of biography at Wittenberg, spoke on the history of Thanksgiving today at a school assembly.

Observance of the holiday had been sporadic and localized until Lincoln's term. Mrs. Hale had made the proposal to Lincoln and other government officials, Dr. Bloomhardt said.

Lincoln's proclamation of 1863 was followed by similar proclamations in the bitter war years of 1862 and 1863, said Dr. Bloomhardt, and the legal holiday became deeply imbedded in our national life.

XXVII
While the rain continued to fall, even Daggett found the view depressing and he consented to let Greg close the blinds. Rupert, ashamed of his ill humor, made amends by offering to play cribbage with the old man.
Kirby turned to Greg. "I've been trying to figure the pitch," he said in a low tone. "I don't get it."
"No pitch," Greg explained in an undertone. "The old man has had a touch on the shoulder and he's having a last fling. He's set on going back to the place where he grew up, been trying to screw up his courage for weeks, ever since we started out. Kind of afraid of being disillusioned."
"What got you into this?" Kirby asked.
"I was fed up with my job," Greg said briefly.
Kirby ducked his head toward Rupert. "What's he sore about? Every time I open my mouth he jumps me."
Greg found himself leaping to Rupert's defense. He gave Kirby a brief outline of Rupert's experiences with torture, prison, internment, escape.
"Rupert," he concluded, "is quite a guy. I wouldn't make any bets I could take what he has. So if he gets off the beam now and then, who's to blame him?"
"Smuggled over the border, was he?" Kirby commented thoughtfully.
Something in his tone roused Greg to alertness. "If you think," he said evenly, "you are going to come out of your amnesia to find yourself saving America from an enemy alien, you—"
Kirby did not quite meet his eyes. "Okay," he said hastily. "It was just an idea." He lighted a cigaret, lazily watching Hannah at work in the kitchen. "The old man has quite a nerve. I could bear to know her a lot better." Greg looked at Hannah who

avoided his eyes. She had taken the cake out of the oven and she was busy icing it, but he saw the blush that was so apparent on her fair skin. He was vaguely aware that Hannah put on her raincoat and went out, saying, "I can't stand being cooped up. I've got to have some fresh air."
Greg woke with a start when the door of the trailer opened and Hannah blew in with a gust of rain.
"I was about to send out a search party," Daggett told her, trying unsuccessfully to conceal his relief at her return.

Hannah's cheeks were glowing and drops of rain were caught in her fair hair. Her eyes seemed bigger and darker than Greg had remembered. "You must be hungry. I'll have dinner ready as soon as the popovers are done."
"You won't get dinner," Daggett said firmly, "until you have changed your clothes. You are wet to the knees. What did you do? Fall in a puddle?"
"The water is deep in the park," Hannah explained. "About a foot, I guess."
"It couldn't be! Even a rain like this—"
"Oh, it's not just the rain," she explained. "The brook has overflowed and the whole park is flooded!"
Greg was on his feet, jerking his zipper jacket out of a cupboard. "Of all the lame brains! Why didn't you have sense enough to come straight back and tell me? Don't wait to change now. Get ready to roll!"
"Where are you going?" Daggett called as Greg started for the door.
"I'm going to get us out of here!"
Wind and rain beat at him as he unfastened the water and electric attachments. With his usual care he had automatically selected the highest site the day

before and the water had not yet reached the bottom of the trailer. He waded around the car, backed it up, went into the water again to remove the front jack so that the coupling of the trailer dropped into place. Then he went in to pick up Daggett in his arms. Hannah flung a blanket over the old man and Greg eased out of the doorway, down the steps, and splashed his way through the water to the car. He put Daggett down on the front seat.
Slowly he pulled out of the mud, the wheels caught on harder ground, strained up a hill and emerged from the water. He brought it to a halt.
"Hain't we better keep going?" Kirby asked.
"No," Greg snapped, "we can't go until those dogs back there wake up to what is happening." He pocketed a flashlight and ducked into the darkness and the pouring rain.

When he returned to the trailer nearly an hour later, drenched to the skin, chilled, his knuckles grazed, his muscles sore, he grunted in answer to Daggett's unspoken question. "One of them had put his trailer down in the lowest spot and we had a time with it. The other guy couldn't get his car started. But they are okay now."

"Change your clothes, Greg," Hannah said. "Dinner's hot but the popovers feel. We'll eat as soon as you are ready."

Daggett, his eyes sparkling in his dead face, ate heartily. He was, Greg realized with suspicion, inordinately pleased about something. Hannah bustled around washing dishes and getting ready to move on.

Greg wanted to reach out, to touch her. He wanted to say, "I'm sorry. I n—r meant to hurt you." But his native caution stopped him. Better say nothing at all. The only thing he was sure of was that he was not in love with her. She was not his type, not the girl he dreamed of, not the girl who had first captured his imagination, and to whose prototype he had been faithful, in his fashion.

UNION, S. C. — Sheriff Clyde Bolden was driving a 14-year-old girl to a state industrial school when she casually asked for a cigaret and match. Just as casually, she set fire to the car seat. While the sheriff was putting out the fire, the girl fled into the woods.

PAY NO MONEY DOWN ON WINTER OVERHAULS

AVOID THE LAST MINUTE RUSH
HERE'S HOW IT WORKS:

- A—Get your tractor or equipment overhauled now—during the winter months.
- B—Pay for it by March first (no interest charges). *on jobs of \$50 or more.

HERE ARE THE ADVANTAGES:

1. Get your machinery overhauled while you have in mind the things that need to be done.
2. We have more time to give each job special attention.
3. You don't need your machinery while we're working on it.
4. Avoid field breakdowns by having equipment in good repair when you go to the field.
5. Costs no more than if you wait until the last minute to get the work done.
